#edu4sdgs Summer School is Happening Soon!

Are you ready to become a change agent for sustainable development? This May, seize the opportunity to be part of an exciting, five-day international experience that blends sustainability education and emotional intelligence, right in the heart of one of Europe's most enchanting cities. This vibrant initiative is a cornerstone of our #edu4sdgs project, aimed at strengthening education's role in achieving the Sustainable Development Goals (SDGs).

#edu4sdgs Summer School | Riga, Latvia | May 19-23

Hosted by Riga Technical University (RTU), the #edu4sdgs Summer School is your gateway to a rich learning journey centered around the Sustainable Development Goals (SDGs) and emotional intelligence. Through a carefully crafted program, participants will engage in stimulating lectures, emotional intelligence training, networking activities, NGO interactions, and even debates to become official Change Agents by the end of the Summer School!

BUILDING A COMPREHENSIVE EDUCATIONAL ECOSYSTEM FOR SUSTAINABLE DEVELOPMENT GOALS

Project Number: 2023-1-PL01-KA220-HED-000165127. Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the National Agency (NA). A Glimpse of the Agenda

Upon completing the program, participants will receive a **Micro-Credential** that certifies their knowledge and engagement with the SDGs. Equivalent to **3 ECTS**, this credential adds value to their academic or professional portfolio and showcases their commitment to creating a more just and sustainable world.

Learn with empathy, act with purpose, and shape a sustainable future together!
